THE WIZARD

Mark Cheplowitz is Founder and President of New York City based Wizard of Ahs. The firm was originally established in Cleveland, OH in the early 1980's as a booking agency when Cheplowitz recognized a need in the entertainment industry for a consumer-oriented business. He turned his idea into an international multi-million dollar event planning, logistics, management, production, and entertainment booking company, all the while maintaining a personal touch.

Internationally recognized for his creative and unique presentations, Cheplowitz accepted invitations to work as Creative Consultant for the Super Bowl, Orange Bowl, Gator Bowl, Pro Football Hall of Fame Game, and Monday Night Football Pre-game, Halftime, and Post-game shows. He has also been local Logistics Coordinator for White House Presidential and Vice Presidential visits, and an S1 (Site Lead) for presidential campaigns.

Cheplowitz was one of seven judges selected to review New York and Chicago EMMY submissions for "Event Coverage" and "Entertainment Specials" categories. In addition, Cheplowitz's work has received numerous EMMY awards and nominations. In addition, Cheplowitz was awarded the prestigious Governor's Award (a next-level EMMY,) presented by the National Association of Television Arts and Sciences in recognition of his work coordinating international and national media during the grand opening of the Rock and Roll Hall of Fame and Museum. Other awards include twice receiving the prestigious "Weatherhead 100" award, recognizing his company as one of the fastest growing companies; nominated as Producer of the Year by Events Solutions Magazine; interestingly, both the Welcome Home LeBron James Stadium Show and Dazzle the District: The Lighting of the World's Largest Outdoor Chandelier were nominated for the regional CCA Awards in the same category, and ultimately winning for Dazzle The District.

Cheplowitz is also a published author and internationally recognized speaker. His articles appeared on Entrepreneur.com, and CareerBuilder.com websites as a feature in their "Employer Advice" column, and has written numerous articles for trade publications, such as Exhibitor Magazine. He was also a regular contributing writer for PR Week, and quoted in Inc. Magazine's article "How to Plan a Product Launch Event." He has given numerous television, radio, newspaper, and industry publication interviews over the years on the science behind making events and shows successful, but his passion is speaking to high school and college students about the industry, most notably at the prestigious S.I. Newhouse School of Public Communication at Syracuse University.
